## Everpure® Generic Replacement Cartridge

**Economical replacement bodies for existing Everpure® permanent heads currently on the market.**

The new Everpure® *Generic Replacement* Cartridge was designed for our customers that are using existing permanent heads but would like an alternative to the replacement bodies offered.

The main benefit of the Everpure® *Generic Replacement* Cartridge is price to performance value. Everpure® *Generic Replacement* Cartridge filters, with equal or superior filtration capability, are offered at a considerably lower price than comparable replacement bodies on the market.

Everpure® *Generic Replacement* Cartridge Series utilizes several media or media combinations to address standard water problems including granular activated carbon (GAC), polypropylene depth filtration, and polyphosphate. Everpure® *Generic Replacement* Cartridge Series also offers one or ten micron carbon blocks, carbon blocks with lead sorbent material and carbon blocks with scale inhibitors to address specific water conditions.

Everpure® *Generic Replacement* Cartridge Series bodies are offered in 6", 8", 10", 12" and 14" lengths. Bodies are tested to withstand pressure of 125 psi and temperature of 100° F. Media service life is designed to handle up to 3,000 gallons in some models and filtration micron ratings are as low as 1 micron in other models.

**Test Information:**

Everpure® *Generic Replacement* filter housing and fittings have been tested for performance under NSF Standard 42. Tests included Hydro Static Testing at 300 psig and Cycle Testing of 100,000 repetitions from 0 to 150 psig. Complete test results are available on request. Our products have been tested and listed under Standard 42 for taste, odor and chlorine reduction; or particulate reduction; or have been materials certified. All filters should be installed on cold water lines only.

*NOTE: Activated carbon filters are not intended to be used where the water is microbiologically unsafe or with water of unknown quality without adequate disinfection before or after the unit.*

**Waranty Information:**

We warranty that the products delivered will be free from any defects in workmanship or materials. Further, the warranty provided herein applies, only when used within the products specifications and service life, from the date of installation, beyond which time or use we are absolved of any and all liability for any use of the product. In the event of defect or non-conformity, buyer shall promptly notify us in writing, supplying proof of purchase dates, installation dates, and will protect and retain the products for investigation, or we are absolved of any and all liability for any use of the product. There are no other warranties, either merchantability or fitness, either expressed or implied.

**Everpure® Compatible Replacement Cartridges:**

Compatible replacement cartridges (filter body) specially manufactured to replace the Everpure® cartridge. These cartridges are made to the original Everpure® cartridges' specifications and have a rated capacity that can exceed the original make. "P" models contain polyphosphate for use in softening hard water supply. For soft water supply, use regular models without the "P" suffix.

**Everpure® Compatible Replacement Cartridges:**

The diameter of these cartridges may differ from the original Everpure® cartridges. However, the head will fit the Everpure® valve head (except for the EverPure Pro Series which has a different type of head).

*Please consult with us for exact Everpure® cartridges' replacemt model.*
